6 Day Dental gets A+ checkup

FROM STAFF REPORTS

Six Day Dental and Orthodontics, a Coppell-based dental company founded by Dr. John Bond in 1989, announced that the Better Business Bureau of Dallas has issued an A+ rating to the organization, held since January 2003.

BBB assigns grades from A to F with pluses and minuses, and the dental company has achieved its highest mark. The grade represents BBB's degree of confidence that the business is operating in a trustworthy manner and will make a good-faith effort to resolve any customer concerns.

"We are very proud of each of our employees at our five North Texas locations," said Dr. John Bond, founder and chief executive

officer of 6 Day. "It is pride in their work and care for our patients that have earned 6 Day this rating."

Bond maintains that the A+ rating is the result of caring for patients, which is a top priority and what the company does best.

The company takes extra care with its youngest patients, finding ways to get them to enjoy their visits to the dentist, Bond said.

Bond created Molar Man, 6 Day's Ambassadors of Smiles, as well as other characters such as Ginger Vitis, Hallie Tosis, Bacteria Boy and Canine.

Since opening the dental facility, the message has been the same: to encourage good oral hygiene through brushing, flossing and regular visits to the dentist, beginning at an early age, said Bond.
